

## HAPPY EASTER! - Kalo Páscha!

- to all our sailing enthusiasts, local experts and friends of Greece in the 2026 season!

Everything is blooming, buzzing and fragrant – music is in the air... “Òpa!”  
We are delighted to welcome you back soon to the unspoilt, fresh nature of the Greek spring, on these uniquely green islands of the Ionian Sea – *in our most beautiful Greece* –

!

This year, Easter in Greece falls on 12 April 2026, a week later than in Germany. Everyone is already getting ready for it. Traditionally, red eggs are dyed, and houses and boats have been literally ‘spruced up’ and polished to a high shine at this time of year for centuries!

### A warm Kalimera, dear sailing friends!

Our pontoon is already in place; - The yachts are all arriving fully refurbished and with a fresh coat of antifouling paint. In addition to the general overhaul, some have also been fitted with a new bimini and sprayhood, as well as new mattresses and cockpit cushions. Now, with freshly painted teak, we’re finally heading back into the sun and the water after a long and very rainy winter, and to our pontoon in front of the base office! By the way, the showers and washrooms were completely refurbished here over the winter!

**Let's go! The sea awaits – ... Captains! Sailing Season finally starting again!**

Pure enjoyment awaits everyone who appreciates the beautiful natural region **of the Ionian Sea** and, above all, the many cruising opportunities to secluded bays and unique natural harbours.

### SECURE THE BENEFITS OF OUR up to 20% EASTER SPECIAL OFFER!

Perhaps your dream week is still available!?! Why not go sailing for a few days during the **early season**, from **Tuesday to Saturday** – we’re ready and:

**we look forward to seeing you!**
